PRICE, FIVE CENTS.

THE SCHOOL BONDS.

Receiver W. A. Latimer Will Surrender Them.

WRITES TO THAT EFFECT.

J. H. Rhodes Appointed Assistant Attorney to the Receiver—The Situation Today.

Receiver W. A. Latimer, of the First National bank, today notified M. Harter, treasurer of the Sedalia school board, by letter, that if he would call at the bank and furnish an indemnifying bond the government's representative would turn over the \$7,000 in school bonds found in the private box of J. C. Thompson, which "find" caused quite a sensation some three weeks ago.

Mr. Harter was interrogated by the DEMOCRAT as to whether or not he would furnish the required bond, and answered that he would not do so on his own responsibility. He will lay the matter before the board, however, and it is almost certain that this step will be taken.

Mr. G. W. Barnett, the attorney, who is a member of the school board, stated that Henry Lamm had been retained by the board to look after this particular matter, but he left today for El Dorado Springs and hence could not be interrogated on the subject.

Assistant Attorney Named.

The DEMOCRAT learns from an unofficial source that J. H. Rhodes, attorney for the Equitable Loan and Investment association, will be appointed assistant attorney to the receiver of the First National bank, but the parties interested refuse to be interviewed.

There is considerable uneasiness among the stockholders because of the fear that an assessment will soon be ordered against them. Receiver Latimer will send his final report to Comptroller Eckles this week, and it is believed the latter gentleman will order an assessment soon afterwards.

"Jimmie" Wanted a Slice.

It is not generally known, but it's a fact nevertheless, that Mr. Thompson did his level best to prevent the

building of the Sedalia, Marshall & Northern railway, of which O. A. Crandall was president, as he still is of the new company, Missouri River and Tidewater Railway Co.

"Jimmie" was jealous of the efforts of President Crandall, and was angry because he had not been consulted in any manner regarding the enterprise. In fact, he sent word to Mr. Crandall that unless he (Thompson) was given an opportunity to make something out of the undertaking he would defeat it, and as his demand was not complied with he threw every obstacle possible in the way.

He Owes Nothing.

B. S. Rembaugh, whose paper to the amount of between \$30,000 and \$40,000 is on deposit at the bank, says he does not owe the institution a penny, if justice is done him.

He claims that he has been robbed by Thompson for the past ten years, and some sensational disclosures are promised before the end is reached.

Got Dollar for Dollar.

Carter H. Fitz Hugh, of the Baldwin locomotive works, Chicago, discussing bank failures, said to a reporter of the Kansas City Journal:

"I see by your papers that there is a good deal of discussion about the assets of the Kansas City Safe Deposit and Savings bank. I do not know anything about the estate, but if I had any claims in there I should hold on to them. Real estate is always good property sooner or later. It may take time to get your money out of it, but if you hang on it is apt to come. Just after the big fire in Chicago in 1871 the old Second National bank of Chicago went into the hands of a receiver.

"Among the assets was a whole raft of swamp land securities around the suburbs of the city. Many of the depositors thought it was good for nothing, but the receiver held on to it and last year the estate was closed out. Every creditor was paid

100 cents on the dollar and the stockholders divided among themselves \$167 for each dollar's worth of stock they held."

The Kansas City Case.

J. C. Darragh and Elmer C. Sattley, president and cashier of the Kansas City Safe Deposit and Savings bank, says the Kansas City Star of Sunday morning, will not go to trial for grand larceny before Judge Wofford in the criminal court at Independence tomorrow if they can help it. They will again ask a continuance.

The bank failed a year ago the 11th of this month, bringing great misery to thousands of working people, and the two bankers were indicted the following September on many counts of grand larceny. When brought into the criminal court they began to invoke the many tricks of the law to gain delay. They secured changes of venue and many of the cases were sent out of the county for trial and are still pending. It was a common trick to take a change of venue from Kansas City to Independence, and then outside the county, carrying the trial over two terms of court, though a change of venue is supposed to be only for the purpose of getting a fair trial where the people are not prejudiced. Darragh and Sattley took a change of venue from Kansas City to Independence. Before they

could ask a second change of venue the supreme court made a decision to the effect that one change of venue exhausted the right given by law, and the bankers were therefore ordered to prepare for trial before the people who knew them. One or two continuances were afterwards granted because of the illness of a witness in New York, and the application will be made again Monday.

"We are not going to be ready for trial Monday," said Attorney John O'Grady, who is defending Sattley, last evening. "One of the most important witnesses for the defense is ill in New York, and has been too ill to give us his deposition. We have the depositions of New York physicians as to the man's condition, and will file them in the court Monday, to support our application for a continuance, until this witness recovers."

A SEDALIAN DROWNED.

Martin Jamerson, a Member of the Sedalia Rifles, Loses His Life.

Peter Jamerson, a cigarmaker employed by James W. Brock, on East Second street, received a telegram Sunday from Warsaw, stating that his brother, Martin Jamerson, a young man aged about 24 years, had been missing since Friday evening and it was feared he had been drowned in the Osage river. Peter Jamerson and Albert Jamerson left this morning for Warsaw to assist in the search for the body.

Martin Jamerson was formerly in the employ of L. Bahner, the butcher, and was visiting his parents in Warsaw. He belonged to the Sedalia Rifles and was a young man of excellent character.

DESPERATE MINERS.

They Are Ready for a Battle at Cripple Creek.

CAN STAND A LONG SIEGE.

A Big Battle Looked for at Any Hour Between 1800 Armed Strikers and Deputies.

CRIPPLE CREEK, Col., June 4.—

All day long the striking miners have been on the alert expecting that at any moment some of Sheriff Bowers' deputies would put in an appearance in some remote portion of the camp. No a single miner is working in the camp. One shift was put in on the Moose, Elkton, Prince Albert, Gold Dollar, Ingham, Jack G., and a few other properties, but the managers of the several mines were informed at noon that it would be impossible to run any of the properties. The men are now confident that they will be attacked some time today. They are ready, and this is so well known by the deputies that the officer commanding is using the utmost caution. All men not necessary to guard approaches to Bull hill, and forage for supplies have been massed about the fortification, and their number is slightly over 1,000.

Yesterday the strikers made their last forage for arms, ammunition and supplies. Fearing a siege, they have filled hundreds of beer kegs with water and stored them in the fort. Parties have been drafting recruits. Many of these parties

were headed by women, who promise to stand till the end comes. The towns of Victoria, Anaconda, Mound City and other places are in the possession of squads of armed strikers.

The plan of the strikers is to meet the deputies and make as strong a stand as possible, and if necessary retreat to Bull Hill, where a desperate stand will be made. The deputies will be commanded in the field by W. J. Palmer, leader of the army that had so many skirmishes during the building of the Denver and Rio Grande road. He says that any moment the deputies may advance to a point beyond Midland, after which a battle will be only a question of hours.

The miners today hailed with delight the words of Governor Waite in response to Sheriff Bowers' demand for troops and they now look forward to a battle, the end of which will be for them either victory or extermination. Open threats against Colorado Springs are made as a result of the treatment of Governor Waite and John Calderwood.

The wives of strikers refuse to leave camp. Some of them have organized to care for the wounded and others have procured Winchester rifles and will enter the fight. The strikers know not what to do if the militia is called out. They believe Governor Waite to be their friend, but while here he said to the miners: "The law has been violated, and I shall see that it is enforced in the future at any cost."

It is expected Deputy United States Marshals Wise and Brown will soon arrive in camp to serve summons on the officers of the union to appear in St. Louis in the court of appeals. They will offer no resistance, as they fear federal authority.

The Ministers' Alliance.

At the regular weekly meeting of the ministers' alliance, this morning, the time was spent in arranging for the forthcoming meeting of the Chautauqua assembly.

PROVEN A BIG SUCCESS.

Chinch Bug Station at Emporia Doing Good Work.

EMPORIA, Kan., June 4.—The experiment of locating a chinch bug station in Emporia, under the direction of the State Normal school, and in charge of Prof. George I. Adams, a former student of Chancellor Snow in the State university, has proven a great success. Lyon county pays the expenses of the station, and the county clerk, through whose office shipments of infected bugs are made, is kept busy attending to the hundreds of orders received. Prof. Adams states that applications are being received not only from all parts of Kansas, but from states and territories of the far west, and even from Texas and Mexico.

Every person supplied with infected bugs is asked to send back a report as to how the infected bugs have acted. In only one instance was a failure reported. In this case the farmer sent back the box with a portion of the original shipment of infected bugs, to which he had added others. When the returned package was received it was found that the contagion had acted like a charm, and by the next mail came a letter from the farmer stating that he had jumped to a too hasty conclusion, and that the chinch bugs were being destroyed by the million on his farm.

UNABLE TO FACE THE MUSIC

Rioters at Clarke Station, Ind., Flee From the Militia.

WASHINGTON, Ind., June 4.—The state troops marched to Clarke Station yesterday morning 500 strong with a gatling gun to find that only about fifty miners had stayed to face the music. The militia was drawn up in line along the edge of the woods and Sheriff Leming then read the warrants against the miners for riotous conspiracy and placed three of the leaders, Squire Summers, Dick Gate and John Flynn, under arrest, bringing them to this city and placing them in jail.

As soon as the troops were in line the railroad men repaired the track and the loaded cars were taken on west.

The thousand miners who were reported en route to Clarke station did not materialize, neither had they collected at any point along the Baltimore and Ohio Southwestern. The certainty that the officers intended to enforce the law seemed to quell the rebellious felling among the men.

The miners say that as soon as the troops are withdrawn they will again stop all coal cars, but, anticipating this, two companies will be stationed at Clarke until all fear of trouble is past. Every man in this city is now quiet, and there is a general feeling of relief among all classes. Trains loaded with coal have been passing through the city all afternoon.

THE Pennsylvania mine owners have begun importing negro labor from the south to displace the striking coal miners.

THE opponents of the income tax held a meeting in Carnegie Hall, New York, the other night. A very appropriate place for the meeting.

LINCOLN county boasts of the very oldest old man in the state. His name is Nathaniel Dell and he was born in Pennsylvania in 1785.

MISS PHOEBE COUZINS, the eloquent reformer and lecturer, has come out in an interview endorsing the Coxe bill. She holds that the vast army of unemployed should be put to work building highways.

It will be news to many who have "stood up for protection" that the condition of the English coal miner is now better than that of the American who is engaged in the same pursuit. As proof of this fact English miners have quit coming to this country to look for employment.

THE democratic congressional convention will meet at Springfield tomorrow and will nominate Hon. John T. Heard by acclamation. The hearty endorsement he will receive at the polls in November will be but the verdict he has merited by his zealous, faithful and intelligent services in congress.

EVIDENCE accumulates that the tariff barons have decided to fight for the absolute right to control the markets and levy such tribute upon the people as they choose to extort. This policy will force the tariff reformers to adopt absolute free trade as their motto. It seems that it will be as easy to cut off the serpent's head as its tail.

THE democratic state committee organized last Saturday by the reelection of Chairman Maffit and the selection of Col. J. W. Zevely as secretary. Mr. Maffit has filled the position for several years with marked ability and success and Col. Zevely will make a model secretary. The campaign, as managed by these gentlemen, will be vigorous and aggressive and no section of the state will be overlooked in most effectually arranging the party forces.

NEXT Tuesday promises to be a red letter day for the Democracy in this city and county, says the Springfield Democrat. Our republican friends will all capitulate for the time being and join in extending a cordial welcome to the delegates who will compose the democratic congressional convention.

Everything will be in perfect harmony and the Hon. John T. Heard will be renominated without opposition.

Ir Sedalia is going to celebrate the glorious Fourth of July it is time some arrangements were being made and some special attractions considered. The expenditure of some little energy and a few dollars would make an enjoyable holiday for everybody and attract thousands of visitors to the city. Shall there be an old-fashioned barbecue with a bountiful supply of elo-

quence, fireworks, etc., or what particular form shall the celebration take?

LETTING THE CAT OUT.

War has again broken out in the republican party councils, and "De Ole Man" Filley reads the riot act to Colonel Dick Kerens in a way that will delight the lovers of good government in Missouri.

Colonel Kerens aspires to be somewhat of a "boss" himself and belongs to that sanguine class of politicians who imagine that they have "filley down" on many occasions, only to find when "business" commences that that wily old politician is on top.

Lately these gentlemen have been making Filley uncomfortable to such a degree that he exposes some of the inside secrets of the republican committee, and the ray of light discloses a most amusing state of affairs.

It seems that Kerens has gained his influential position by lavish promises to open his "bar," but that after he got what he wanted he declined to waste his good money in a hopeless cause, and things got so badly mixed and the exchequer became so nearly emptied that creditors brought suit against the members of the republican state committee.

In the course of an interview that is full of meat, Filley says:

I do not blame Mr. Churchill for kicking. He ought to kick. He ought to have credit for the \$150 which he says he gave for the state campaign of 1892. He has, he says, vouchers for \$450, but for this \$150 which he gave for the state campaign he says he has none. The assistant sub-treasurer has not a dollar of credit on the report of the state committee. Who will believe that he did not give and give in proportion to his salary? He has always been a liberal giver, when able. Then, where is the credit for the late United States Marshal Buchanan? Not a dollar to his credit. Who got Churchill's \$150? Who got Farrar's? Who got Buchanan's? Neither are stingy men. Who got Subordinate Assistant Postmaster Sturgeon's subscription? He is not credited with a cent. It is well known that he gave. He has had the experience of holding office both under democratic and republican presidents—eight, I believe—and he has been broken in and has been used to giving. But he has no credit. It is not right. He should have the credit of his subscription. He should have had it. It was due him.

"This bragart says he brought to Missouri in the last campaign the greatest republican orators who have ever been in the state, and as a direct consequence the beastly democratic majority was cut way down. Blaine, Conkling, Storrs, Morton, Sherman, Woodford and others, have been in the state, but they did not contribute to the lessening of the republican vote, as in 1892 for president, 9,336, and the vote for governor, 7,418. That is to say, Harrison received less votes in 1892 by that number than in 1888.

"Warner received 7,418 less votes than Kimball, and the falling off in the republican vote in the state in '92 was 9,336. Wise owl! Great statistician! Truthful man! Big Injun, me! It's laughable."

Thus Filley, the best informed republican politician in the state, discloses some of the secrets of his party organization and makes public the true condition of that party—its bickerings, its animosities, its crimonations and recriminations.

Democracy has nothing to fear from such an enemy, and, under the circumstances, the proud boasts of the less informed republican leaders are really laughable.

A few see the inevitable and are endeavoring to pave the way for a graceful surrender by making overtures to the populists for a coalition.

An Afflicted Family.

A telegram was received at Marshall, Sunday, announcing the death at Jackson, La., of Miss Eva Noble, a popular young lady of Marshall. Her father, N. B. Noble, is a hopeless paralytic, and a few days ago his wife was stricken with the same disease.

A CLEVER SWINDLER

Made Moberly His Base of Crooked Operations.

WAS FINALLY RUN DOWN.

He Operated On a Wholesale Scale and His Victims Are Believed to Be Numerous.

H. E. Emmons, alias R. H. Cole, who was arrested at Moberly by Postoffice Inspector Johnston and United States Marshal Lynch on Wednesday and lodged in jail at Hannibal, charged with swindling a number of millers in various parts of Missouri, Kansas and Iowa, is believed to be the party who operated in Kansas City and swindled Kansas farmers out of \$30,000. Emmons' alleged method of fleecing millers is an old one.

Last February he opened a flour and feed store in Moberly, calling the firm, which consisted of himself, "H. E. Emmons & Co." He then began to put his scheme of swindling into operation. Circulars were sent to millers in the above mentioned states, which, in a very smooth way, announced that his firm had facilities for disposing of flour through commission merchants which were unequalled.

The prospective customer was also informed through the circular that the First National bank of Moberly would furnish references as to the good standing of the firm. Emmons' next move was to establish a firm in Del Ray, Mich., a suburb of Detroit, where a reputable flour and feed store of the same name existed, so that when those who received the circulars made inquiries concerning "H. E. Emmons & Co., Detroit," they found that the standing of the establishment was first-class. The terms of the new firm were thirty days' time to pay for the flour sent by the millers, and in a few days the circulars began to bear fruit.

At the same time the First National bank of Moberly received a number of inquiries concerning Emmons. While Emmons was transacting his business the bank was investigating the firm, and in a few days complaint was made against Emmons & Co. by the bank. A miller in Erie, Kan., who had done business with Emmons, also complained that the latter had contracted to sell several car loads of flour for him at \$2.35 per barrel; that the flour had been shipped and sold, but Emmons had pocketed the money. Numerous complaints of the same character were received by United States Marshal Lynch, the result of which was that Messrs. Lynch and Johnston visited Emmons in Moberly and demanded an explanation. The latter tried to straighten matters, but he was locked up.

It appears that Emmons would make a contract with some miller to sell his flour at a price far in advance of what the market was bidding. The miller shipped his flour and Emmons in turn transferred it to a commission firm, which sold the consignment at the market price and, the millers claim, Emmons pocketed the money. Emmons had dealings with two commission firms in St. Louis, Anan, Burg & Smith and Brockmeier & Seiving, about ten days ago. He shipped the former several car loads of flour and instructed them to sell it as high as possible. It was disposed of at prices ranging from \$2.10 to \$2.15 per barrel, and it is alleged the owner of the consignment never received his money. Brockmeier & Seiving sold only one car load of flour for Emmons. Mr. Seiving, one of the firm, refused to give the selling price.

Postoffice Inspector Johnston is of the opinion that outside of his transactions in the flour and feed business Emmons is a badly wanted man. "We are working on a clew now," said Mr. Johnston, "which, if it develops, will implicate Emmons in that \$30,000 flour swindle which was so neatly executed in Kansas City a couple of months ago."

Emmons is a short, heavy-set man of perhaps 32 years. He has a smooth face and impresses one as being anything but shrewd. He has a wife, who accompanied him to Hannibal. Emmons claims that before entering the flour and feed business he ran a dairy in Rochester, N. Y.

Announcement.

We take pleasure in announcing to our friends and patrons that we have leased the large and elegant store room in the Hoffman Building, thus securing the most commodious and most desirable headquarters in the city.

We will move July 1st, and between now and that time will offer to make to order, rather than move, choice of our large assortment of Scotch Cheviot and Worsted Suitings at a great saving to the purchaser.

It will be worth the while of any one contemplating ordering a suit or even trousers, to visit us and get our prices.

Remember we move to Hoffman Building July 1st.

No. 127.
THE TREASURY DEPARTMENT—OFFICE OF COMPTROLLER OF THE CURRENCY, WASHINGTON, D. C., May 10th, 1894—WHEREAS, William A. Latimer, a National bank examiner, duly authorized and directed by the act to examine the affairs of "The First National Bank of Sedalia," located in the city of Sedalia, county of Pettis, and state of Missouri, has after due examination of its affairs, reported to me that the said bank is insolvent, and being satisfied that the said bank is insolvent and unable to pay its just and legal debts:

Now, therefore, I, James H. Eckels, Comptroller of the Currency, in pursuance of the power and authority vested in me by law and under the provisions of section 1 of an Act of Congress entitled "An Act authorizing the appointment of Receivers of National Banks, and for other purposes," approved June 30, 1878, do hereby appoint William A. Latimer Receiver of "The First National Bank of Sedalia," with all the powers, duties and responsibilities given to or imposed upon a Receiver under the provisions of the Revised statutes of the United States which authorize the appointment of a Receiver.

In witness whereof I have hereto subscribed my name, and caused my seal of office to be affixed to these presents, at the [L. S.] city of Washington, in the District of Columbia, this tenth day of May, A. D. 1894.
JAMES H. ECKELS,
Comptroller of the Currency.

RAILROAD RUMBLE.

Splendid Record of a Western Engine.

WAS BUILT AT HANNIBAL.

Items of Interest Picked Up From Various Sources for the Benefit of "Democrat" Readers.

Burlington engine No. 26, built at the company's shops at Hannibal, came out of the shops June 23, 1892, and was returned May 20, 1894, being out of the shops, therefore, one year and eleven months, or 697 days, during which period it was only idle seven days.

It ran during this period 149,665 miles. During this period it consumed 5069 tons of coal, 10,203 pints of oil, of which 7612 were used for lubricating purposes. It therefore ran 29.52 miles to one ton of coal. This engine hauled during this time, trains 15 and 16, which are the fast night Denver trains, and trains Nos. 13 and 14, consolidated St. Paul and Denver trains between St. Louis and Hannibal. These trains are the two heaviest, fastest and most important trains of the system. No accident of any kind happened to this engine causing any delay.

Coach, Cab, Caboose.

Freight business is picking up on the M., K. & T.

Engineer Geo. Neely, of the Katy, is home on a visit to his family.

Secret Service Officer John DeLong goes west this afternoon.

The M., K. & T. is the best advertised road leading to the southwest.

Engineer J. J. Reilly came up from Centertown yesterday and will return this afternoon.

Warren V. Galbreath, claim agent for the M., K. & T., accompanied by his wife, has gone to Ripley, O., to be present at the marriage of his sister.

A railroad train in Spain recently made a run of twenty-five miles in little over an hour, and the papers are full of jubilant articles about the achievement.

The seventh annual meeting of the Train Dispatchers' Association of America and Mutual Benefit Association will be held at the Palmer house, Chicago, June 12.

G. D. Huffine, Missouri Pacific line repairer, yesterday visited the family of Mr. W. M. Mitchell, three miles northwest of the city, and returned in the evening. He reports having enjoyed a splendid dinner and a good time generally, and regrets that he can't spend more Sunday the same way.

A DAY'S DEATHS.

Justice Mann Near Beaman and Mrs. Putman at Smithton.

Justice A. L. Mann, whose dangerous condition has frequently been referred to by the DEMOCRAT, died at his home one and one-half miles south of Beaman at 6 o'clock Sunday morning, after an illness of several months with abscess of the liver.

Andy Mann, as he was familiarly called, was one of the best known republicans of Beaman township and was a good citizen. He was about 55 years old and leaves a family of a wife and several children. The interment took place Sunday evening.

Mrs. H. B. Putman, a widow, aged 53 years, died at her home in Smithton, at 9 o'clock Sunday morning, of cancer. Deceased left two children and a large circle of friends to mourn her demise. The interment took place a Smithton this morning.

The Dead Empire.

The body of Henry Wilson, the colored man whose skull was fractured with a base ball bat in the hands of Emmet Hardin, was taken to Smithton Sunday forenoon and interred there. Quite a number of colored people accompanied the remains to their last resting place.

The Company May Dissolve.

It is said the Guarantee Investment Co., of St. Louis, whose officers were recently convicted of running a lottery, will dissolve at an early date.

Former Sedalian to Wed.

Mr. Joseph M. Bryson, for the past six years assistant attorney general of the Missouri, Kansas and Texas, has announced to his friends

his engagement to Miss Finney, of St. Louis. Mr. Bryson is well known and highly esteemed by the people of Sedalia, where he formerly resided, and the DEMOCRAT congratulates him on his approaching marriage.

A LIVELY RUNAWAY.

Mr. and Mrs. Frank Hughes Hurdled Into the Street.

Mr. and Mrs. Frank Hughes figured in a lively runaway last night. They were driving along Ohio street, when, at Broadway, the horse began to rear and plunge. An instant later the animal gave three vicious kicks, overturning the buggy and hurling the occupants into the street. Mrs. Hughes sustained an ugly scalp wound, and was considerably bruised, as was also her husband, but neither was seriously hurt.

The horse continued to run north on Ohio street, frightening people who were out driving and also scores of pedestrians, but fortunately no collision occurred until the Bothwell building, at Fifth street, was reached.

At this point the vehicle collided with a telegraph pole, demolishing a wheel of the buggy, and the screen from Higginbotham's barber shop window was torn away, but the glass was not broken. The horse fell upon the sidewalk and was soon in charge of the large crowd that had collected, and thus was concluded one of the most exciting runaways seen in Sedalia in many a day.

OTHER ATTRACTIONS.

The Chautauqua Programme Rapidly Being Filled.

The Chautauqua management are every day adding new attractions to the list for the coming assembly.

The latest prize secured is the Aeolian Male quartette, of Buffalo, N. Y. This is one of the finest in the east and will delight the Chautauqua audiences with their fine harmonies.

Mrs. M. G. Kennedy, of Philadelphia, who has had charge of the Children's department in the Ottawa assembly for nine years past, has been secured for the same department here.

The inimitable "Get There" Eli Perkins will get there for two evenings. Dyspeptics had better begin a course of treatment at once in preparation for the test that will be laid upon their laughing faculties.

The outlook is fair for a successful season. The programme already secured is the best ever offered to a Missouri audience.

Killed by a Drunken Printer.

Sunday morning at 1:30 o'clock Charles Burnett, a printer, shot and instantly killed John Kirsch, night porter at the Glenn hotel in Paris. Burnett was drunk and abused Kirsch, and then shot him, the ball striking Kirsch in the left shoulder blade, severing an artery. Burnett has a wife and several children in poor circumstances. Burnett was immediately arrested and locked up.

A Mania for Gambling.

Ed. M. Williams, a former Sedalia printer, but more recently of the Huntsville Herald, from which paper he was dismissed last week, was arrested at Moberly last Saturday, charged with pawning a watch that did not belong to him. Williams has become infatuated with gambling, it appears, and to this fact is to be attributed his downfall.

Gone to Join Kelly.

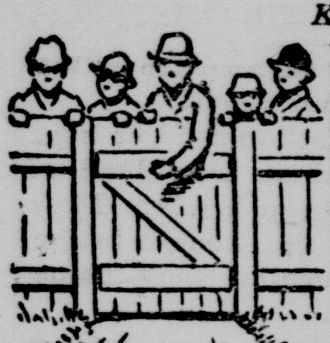

A Sedalia printer is thus referred to by the Boonville Star of Sunday: "Paul Rogers, erstwhile foreman of the Star, shook the dust of Boonville from his feet Wednesday morning, and left to join Kelly's flotilla at St. Louis. The editor is now acting in the capacity of foreman and devil."

Miss Gertrude to Graduate.

The DEMOCRAT acknowledges the receipt of an invitation to attend the commencement exercises of the graduating class of '94 of Monticello academy, at Godfrey, Ill., on Tuesday, June 12, at 10:30 a. m. Among those who will graduate is Miss Gertrude, the accomplished daughter of Dr. and Mrs. A. T. Fleischmann, of this city.

A Birthday Party.

Miss Inez Schneider entertained about thirty of her young friends last Friday night, on the occasion of the fourteenth anniversary of her birth. There was music and games, followed by the serving of choice refreshments, and a delightful evening was spent.

KEEP THEM OUT—all those germs, the seeds of disease, that are trying day and night to get a foothold in your system. You can't do it, unless your liver is active. That is all you have to depend upon, to keep them out of your blood.

The very best medicine for the liver and the blood, is Dr. Pierce's Golden Medical Discovery. Take that when you're getting thin, when you have pimples or eruptions, when you've no appetite and feel "rundown" (these are warning signals)—and you'll save yourself from serious illness.

WORLD'S DISPENSARY MEDICAL ASSOCIATION: Gentlemen—My wife, of whom I wrote you, is another woman as far as her health is concerned, since taking your "Golden Medical Discovery" and "Purifier," she says she feels better than she has for years. She has gained twenty-five pounds in three months.

Dr. T. G. Bracking,

Physician and Surgeon, treats all diseases and injuries of women, nervous and other stubborn diseases, tumors, cancers, ulcers, fistulas, hemorrhoids, fissures, strictures, ruptures, eye, ear, throat, chest, and all surgical and chronic ailments, crooked limbs, &c., with extraordinary success! Ruptures and varicose veins, radically cured without knife and little pain! Why be experimented with by either transient or local "quacks" at such great hazards and waste of money, when you can secure the skillful services of such a master and scientific expert as Dr. Bracking, whose wonderful cures are so well known all over this continent and the British Isles; (when all else had failed?)

No one should be misled by the trading and false statements and insinuations of his little "sore-headed" enemies, who fear his superior skill as a rival. He has an abundance of the highest endorsements of the nation (medical and otherwise), and fearing no rivals, he is fully prepared to compete fairly with all. CRIME IN SEDALIA.

Rev. F. V. Stevens Preached on the Subject Last Night.

A large congregation heard the second of a series of sermons by Rev. F. V. Stevens at the First Congregational church last night, his subject being, "The Cause of the Increase of Crime."

The speaker credited the saloon with being the principal factor, but held that the indifference of the people also figured largely. The churches were criticised for this deplorable state of affairs, and the city was criticised for licensing bawds as well as for other shortcomings.

The Congressional Convention. The Springfield Democrat gives the following as the programme for the democratic congressional convention:

The programme for the democratic congressional convention which will be held here next Tuesday has been completed by the committee. The convention will be called to order at 10 o'clock a. m. sharp in the Baldwin theatre by Thomas F. Mitchum, of Sedalia, chairman of the congressional committee.

A prayer will then be offered by Rev. Dr. DeWitt.

The address of welcome will be delivered by F. M. McDavid.

The band will next furnish music, after which the naming of a temporary chairman by Chairman Mitchum and a temporary organization of the convention will be in order.

Ball Players Coming.

"Roxy" Roach, the well known ball player, returned last night from Morrilton, Ark., where he has been under engagement, and will play in Sedalia the remainder of the season. Harry Swearingen, who was with "Roxy," will return tonight, bringing with him a first-class pitcher from the Arkansas league, and a thorough reorganization of the Sedalias will take place.

A Run to McAllister.

A dozen of Sedalia's bicyclists made a run to McAllister yesterday. They left here at 7 a. m. and made the 22 miles in one hour and 59 minutes. Returning, they rode as far as Houstonia, where they took the train and arrived here at 10:30 p. m.

Aquitted of the Charge.

Albert Wright and Bob Ferguson, colored, were acquitted in Justice Blair's court today of the charge of having maliciously slashed with a knife a valuable cow belonging to A. R. Lash, of the Forest park section.

Let Him Out.

Dennis Golden, whose oversight caused the collision in the Missouri Pacific yards last Saturday evening, is taking a vacation, at the request of the company, because of the accident.

Anxious to Collect.

STORY OF A HORSE.

An Arrest Made by Deputy Constable Barnett

OVER IN MILLER COUNTY.

The Accused Held for His Appearance Before Justice Fisher On Saturday Next.

Deputy Constable Frank Barnett returned Sunday night from Aurora Springs, Miller county, where he on Saturday arrested a young man named Allen, son of Dr. D. H. Allen, a druggist of Aurora, on the charge of having stolen a pony from a man named Varber, who resides on Walnut Creek, this county, on May 29th.

The story is a peculiar one. It appears that a neighbor of Varber's had purchased a lot of ponies in Miller county and brought them to Pettis.

A couple of strays followed the animals, and one of them was located by its owner and returned to Miller county. Dr. Allen, of Aurora, had lost an animal, and was informed that it could be found on the farm of the Pettis county gentleman above referred to.

Young Allen was sent after the pony, and arriving at the farm where it was supposed to be on pasture, he at once took charge of it and returned with it to Miller county.

On arrival home, however, there was some doubt expressed as to whether or not the right animal had been recovered, so Dr. Allen addressed a note to Judge J. N. Dalby and explained the case.

After the letter had been mailed, however, Deputy Constable Barnett arrived at the home of the Allens and placed the son under arrest, charging him with the theft of the pony from Mr. Varber. The accused was taken before a justice of the peace, where he gave bond for his appearance before Justice Fisher on Saturday next.

The case is a singular one in many particulars, but the officer who made the arrest thinks young Allen was honestly mistaken regarding the identity of the pony in question and had no intention of committing a theft.

FINED HER \$50.

A Notorious Bawd Given An Opportunity to Leave Town.

Pearl Howard, a notorious white girl, who has been associating with the lowest negroes in the city, was fined \$50 in the police court this morning and given a stay of execution to leave town at once.

When she was arrested, Saturday night, Officer Myers asked her if it was true that she mixed with negroes, when she horrified him by answering:

"Yes, by G—d. I'd rather be caught with a nigger any time than a policeman."

The answer caused Officers Jim McKenzie and Ed. Love to shed tears, but Officer Myers comforted them by remarking, "That's nothing when you get used to it."

Election of Directors.

The Missouri Trust Co. stockholders held their annual election for three directors this forenoon, and Messrs. F. E. Hoffman, W. T. Hutchinson and John W. Murphy were re-elected. No other business of interest to the public was transacted.

Use the Best Flour.

Sedalias are finding out that "California Belle" and "White Lily" flour make the best bread and cake. All bakers say so. Every sack guaranteed. For sale by all leading grocers.

Want a "Snap."

The Sedalia Stars, Ralph Hauptly manager, would like to play the Sedalia nine that played the Moberly team last week. If agreeable, the Stars will be "on deck" Wednesday afternoon.

City Council Tonight.

There will be a regular meeting of the city council tonight, but no business of special importance is expected to come up for consideration.

SHE BOUGHT HIS IMAGES.

Busts of Bacon and Shakespeare at Fifteen Cents a Pound.

You know these Italian peddlers boys who go about with a tray load of plaster images on their heads? They make up a lot of the images in the dark and next morning they name them.

One of the peddlers went into a grocery on a storm-quiet day and begged with the customary pitiful eyes and guileful heart for a buyer. He was so persistent, he assured his hearers so emphatically that all the images were imported, he moaned so perfectly over their ruinously low prices, that the young woman who had charge of the pickle department asked him what he would take for a bust of Shakespeare. He said: "Two dollar."

"Who's this?" asked the fair patron.

"Bacon," said the boy.

"How much for him?"

"Three dollar."

"I'll give you twenty-five cents for the two," said the girl.

"All right," said the boy, calmly and quickly setting the twain upon the counter.

But she was game. She bought them, solemnly declaring with beautiful heroism they were perfect likenesses, wrapped them tenderly in tissue paper and started home with them in the evening.

But the butcher boy from the other side of the store said next morning he had followed her part of the way home, and he vowed he saw her smash them against a fire plug and skip along without once glancing at the pieces.

A FORTUNATE RECOVERY.

A Jeweler Who Gets Back Diamonds From a Dirt-Dump.

"While in Louisville a few days ago," said a traveler for a jewelry house, "I found one of my customers in a great stew over the loss of a couple of valuable diamonds, which, however, he recovered the next day under peculiar circumstances. The stones had been laid on his desk in an envelope with the end torn off. A commercial traveler had come in and laid his samples on the desk. When he had gone and the porter had cleared up the office the diamonds were missed. They must have been knocked on the floor. The traveling man was above suspicion. The porter was called. He had swept the office and emptied the contents into the dirt bin.

"A rush was made for the bin. The street cleaning wagon had taken away the dirt. Then there was a rush to the dump. It was growing dark. The spot about where the last eight or ten loads were dumped was marked and a watchman put to guard the place. Next day twenty loads of this dirt were carted back to the alley in the rear of the merchant's home and ten men with sieves put to work to search the refuse. The merchant stood anxiously by. Load after load was examined without result and there was actually but one sieve full left to search when in it the envelope, dirty and bedraggled, was found, and in it the precious sparklers. The men were liberally rewarded and the merchant opened a large bottle."

A THOUGHTFUL FRIEND.

The Rocking Chair Was a Friendly Gift, But It Came Rather High.

"I think a great deal of this rocking-chair," said Rivers. "It's made from wood that grew on a farm in Virginia once owned by George Washington."

"I don't see anything extraordinary about it," said Banks, "except that it's big and ugly. How much did it cost you?"

"Nothing. That's the beauty of it. A friend of mine in the East sent it to me. There's nothing like having good friends."

"No, I suppose not. How did he send it?"

"By express. Quite a relief, isn't it? Wood grew on one of George Wash."

"You paid the express did you?"

"Of course. Wood grew on a farm that once belonged to George Washington in Virginia. It isn't every day you can—"

"How much express did—"

"It isn't every day you see a rocking chair made out of wood grown on a farm that once belonged to George—"

"What express charges did you have to pay?"

"Eight dollars and seventy-five cents," said Rivers, with visible reluctance.

Valuable Discovery, It True.

The story comes, by the roundabout way of Tacoma, of the discovery of a point on the Central American isthmus where the tides of the Atlantic and Pacific oceans approach within eighteen miles of each other. The alleged discoverer of hitherto unsuspected geographical conditions is said to have brought back with him from his explorations not only charts and drawings, but estimates for an ocean-level ship canal across the isthmus. The approach of the oceans, it is represented, is due to fissures in the separating land and chasms in the mountain chain.

Sound That Traveled 1,600 Miles.

It is estimated that if a cannon ball could be manufactured 555 times larger than the largest yet known, and that if it could be charged with 555 times more powder than has ever as yet been fired at a single discharge, the sound of the concussion could be heard entirely around the world. The farthest distance which sound has, up to this time, been known to travel was 1,600 miles, on the occasion of a volcanic explosion in the Tomboro mountains, in the island of Sumbawa, in the year 1815.

THE PIOUS STRANGER.

Prolonged the Prayer Meeting While His Pal Was Robbing.

The next time a stranger attempts to relate his experience in a prayer meeting presided over by Rev. J. P. Brushingham, of the Fulton Street Methodist church, of Chicago, he will be regarded with suspicion and will probably be called upon to show his credentials or leave the house. At the last regular meeting the pastor's entire family attended, leaving the parsonage deserted. The brothers and sisters were not in a talkative mood, and the preacher arose to dismiss the meeting, when a stranger in the rear of the room stood up and asked to be allowed to say a few words.

He talked for fifteen minutes and told how precious religion was to him. During this time the good brothers and sisters were loud in their cries of "amen," and the minister thought he had found a diamond in the rough.

When a second attempt was made to dismiss the meeting, the stranger again occupied their attention for some time. The benediction was finally pronounced. The stranger was the first person to leave, not having time to shake hands with any of the congregation.

When the pastor returned home he discovered that the place had been looted. Fifty dollars in money, a gold watch and chain and other articles of jewelry and valuables had been taken. He reported the matter to the police and mentioned the lengthy talk of the stranger. It was learned that the pious stranger was a confederate of the thieves, whose business it was to prolong the meeting until his pals had robbed the house.

ONCE FAMOUS SINGERS.

Campanini and Capoul Have Passed From the Public Gaze.

You may see on Broadway on any fine afternoon two of the world's most famous tenors, men now forgotten, who sung their way into the hearts of their fellow-men as they strutted their brief day upon the stage, remarks a writer in Frank Leslie's Weekly. Now they have passed from public gaze as the mists melt before the rising sun. One is Italo Campanini and the other Victor Capoul. What memories their names recall! The echoes of the old sweet songs come back to us, and there are visions of dainty women clapping their jewelled hands together in ecstasy of delight, while men shout "Bravo, bravo!" The voices of these once great singers have gone, and the poor fellows are toiling to make a living by instructing others. Capoul was said to be the best stage lover ever seen in opera here. Women raved over him, and sent him their jewels and bushels of love letters. Men imitated his dress and even the cut of his hair; and Nilsson, of glorious voice and memory, idolized him. Campanini was not so fortunate as Capoul, perhaps, in this regard, but still women adored him, and his voice was as "sweet as the music of the harp harping on his harp."

There is no applause for them now, only the pushing and jostling crowd as it surges up Broadway at nightfall.

Who was it said that sorrow's crown of sorrows is the memory of happier days?

AN EUROPEAN UTOPIA.

A Town Where Everybody Has Work, Income and No Taxes.

The happiest place in Europe is said to be Klingenberg-on-the-Main. It is one prosperous spot where everybody has work and an income and where there are no taxes, either local or imperial, because the income of the municipality suffices for everything and leaves a bonus for distribution besides. Happy Klingenberg! It is all due to a little wisdom and foresight on the part of its local administration many years ago. There are valuable beds of fireclay in the neighborhood and these the municipality had the prudence not to sell to make the fortunes of other people, but retained for the benefit of the town. The profits pay all taxes and the inhabitants get the surplus divided among them. Young men going into the army received this year a present of fifteen marks each.

The ordinary method of unthrifty municipalities is to throw all their advantages away in water and gas supply, coal fields, public lands and many other etceteras, which are utilized by companies and contractors to build up colossal interests, and the taxes mount up to a dizzy aggregate eventually, all because nobody looked ahead with public spirit at the commencement of enterprises.

A Pious Wish.

Some years ago an old deacon in Pennsylvania was very self-willed, and on two or three occasions made endless trouble in church. After some years they got started again, but another row soon broke out. At last the church clerk got up and said: "Brethren and sisters, I wish Deacon Jones was in hell." The new pastor and the members were horrified, and the pastor said: "Brother Smith, such a remark is unkind and unchristian. Why do you use such expressions about a brother?" "Well, pastor," he replied, "I calculate if Deacon Jones was in hell about six months, he would bust it up."

Hard Times.

The other day a young negro girl was met by an old negro woman, and the usual salutations, with by questions as to the health and happiness of the families were passed. "Does you mammy take in washing?" asked the older. "Yes'm," replied the younger; "she been doing washin for Mr. Blank down here at Mrs. — boarding-house, but he says times is too hard to have clothes washed; and I dunno what she gwine to do now."

NOT SUPERSTITIOUS.

She Had Entirely Recovered From That Weakness.

"I used to be superstitious, but I have overcome the feeling entirely." "Entirely?" I asked.

"Oh, yes," was her reply. "Beginning anything on Friday, or on the thirteenth of the month, going under ladders, refusing to turn back after I have started out, picking up black pins, meeting cross-eyed people on Monday, singing before breakfast—in fact, all those ridiculous ideas I have gotten bravely over."

"Good," I replied as I put on my bonnet—we were going out together—"I am glad to know that you are so sensible."

"Have you got a hatpin you can loan me, Polly, dear?" she asked. An idea struck me.

I went to my jewel-case and took out a long scarfpin with an opal head, and handed it to her.

She took it, and then dropped it, as if it was hot!

"Merely me!" she cried; "I wouldn't wear an opal for \$100 a minute!"

"But I thought you weren't superstitious?"

"Oh, well; opals everybody knows about. That's a fact and not a superstition," was her unconvincing and ungrammatical reply.

So there you are.

She Had a Vivid Imagination. Robert Collyer tells the story of a little girl with a vivid imagination which constantly led her into amazing extravaganzas regarding things which she claimed to have seen. One day, after an extraordinary exhibit in of her inventive powers, her mother exclaimed in despair: "Oh, my dear! my dear! my dear! Don't you know that Ananias and Sapphira fell down dead on account of the lies they told? Don't you remember that terrible story?" "Oh, yes," responded the child, unabashed, "I saw them carried in after they fell down dead!"

Teeth for the Army.

In examining men desirous of joining the Royal Marines of the English army, recruiting officers are directed to pay special attention to the condition of the teeth of a candidate. Seven defective teeth, or even less if they impair the biting or grinding capacity, will render a candidate ineligible, and the examining medical officer is directed to take into special consideration the probability of the teeth lasting.

Working on the Survey.

A portion of the M., K. & T. surveying corps is working today, staking off the proposed cut-off from the stock yards into the city from southwest.
